

Patent applications

---

Patent No 433467

Mixture for transfection of rabbit zygotes and a method to produce this mixture.

Application dated 06.04.2020

Applicant: National Research Institute of Animal Production, Kraków, Poland.

Inventors: Jacek Jura, Natalia Dzięgiel

---

Patent No 433468

Method for preconditioning rabbit zygotes before transfection.

Application dated 06.04.2020

Applicant: National Research Institute of Animal Production, Kraków, Poland.

Inventors: Jacek Jura, Natalia Dzięgiel

---

Patent No 435682

Extender for freezing rabbit semen and a method for semen freezing.

Application dated 13.10.2020

Applicant: National Research Institute of Animal Production, Kraków, Poland.

Inventor: Piotr Gogol

---

International patent applications

---

Nr PCT/PL2020/050092

Mushroom and selenium feed additive, its production and application to improve the condition of breeding animals.

Application dated 04.12.2020 (application for international protection of the invention notified to the Polish Patent Office under No P.432076).

Applicants: Jagiellonian University, Kraków, Poland; Medical University of Warsaw, Warsaw, Poland; National Research Institute of Animal Production, Kraków, Poland; National Veterinary Research Institute, Puławy, Poland.

Inventors: Bożena Muszyńska, Jan Lazor, Katarzyna Kała, Paweł Kubica, Piotr Suchocki, Dorota Bederska-Łojewska, Marek Pieszka, Ewelina Szacawa, Katarzyna Dudek, Dariusz Bednarek

---

Utility models

---

Model No 129193

Protection for edible snail farming pens.

Application dated 02.04.2020 (conversion of invention application P.427484)

Applicants: National Research Institute of Animal Production, Kraków, Poland; Medical University of Silesia, Katowice, Poland.

Inventors: Przemysław Pol, Maciej Ligaszewski, Krzysztof Piotr Jasik, Marta Łoboziak, Piotr Stefan Mielczarek

---

---

Model No 129608

Battery-powered device for light activation of biologically active compounds *in vitro*.

Application dated 15.09.2020 (conversion of invention application No P.431570)

Applicants: National Research Institute of Animal Production, Kraków, Poland; GND3D – Łukasz Kocik, Kraków, Poland; MPL Power Elektor Sp. z o.o., Gliwice, Poland; Medical University of Silesia, Katowice, Poland.

Inventors: Przemysław Pol, Łukasz Kocik, Robert Sacher, Krzysztof Piotr Jasik, Marta Łoboziak

---

Model No 129609

Device for light activation of biologically active compounds *in vitro*.

Application dated 10.09.2020 (conversion of invention application No P.430296).

Applicants: National Research Institute of Animal Production, Kraków, Poland; GND3D – Łukasz Kocik, Kraków, Poland; Medical University of Silesia, Katowice, Poland.

Inventors: Przemysław Pol, Maciej Ligaszewski, Łukasz Kocik, Krzysztof Piotr Jasik, Marta Łoboziak
